

Job description Imaging & Sales Specialist

We're looking for a new colleague to strengthen our Imaging & sales team in our office in Hilversum (NL).

SVI (<http://www.svi.nl/>) develops & sells deconvolution & visualization software (HUYGENS) for microscopic images all over the world. We have more than sixteen years of experience in offering state of the art, reliable and affordable software.

Our prospects and customers have full opportunity to learn and test our imaging software Huygens and understand its underlying techniques. Our whole organization is built to enable that process first and foremost. We've seen high growth rates in our company despite the economic crisis

Candidate Profile

We would like to meet you if you combine an outgoing personality with interest in IT and microscopy, and prefer a more entrepreneurial approach for your further career in close contact with science.

Qualities we seek in you are:

1. Very much a people person, service oriented.
2. Entrepreneurial attitude
3. Knowledge of microscopy
4. Working knowledge of computers

The Offer

1. a challenging job in a very pleasant team of colleagues.
2. excellent remunerations.
3. training-on-the-job by imaging experts.
4. traveling a few times per year to major conferences worldwide to represent the company.
5. acces to a fantastic worldwide network of high-end microscopic labs.

Location Office

Centrally in the Netherlands. Next to A27 & railway-station Hilversum-Sportpark.
