

**The Monash Centre for Electron Microscopy at Monash University in Melbourne, Australia is seeking outstanding candidates for several new positions in electron microscopy.**

**\*\*Research Fellow\*\* (Three year appointment)**

This position will conduct advanced research in aberration-corrected TEM, STEM and related techniques and applications. The successful applicant will have high-level understanding and skills in the theory and application of TEM and a PhD or equivalent qualification.

Job Ref No: A0910254

**\*\* Electron Microscopists\*\*\* (3 positions) - (Continuing appointment)**

These positions provide expertise and training in advanced electron microscopy to support the research activities of researchers using the Centre. The successful applicants will have advanced understanding and skills in the acquisition and interpretation of data from SEMs and/or TEMs and its application to the solution of problems in the physical sciences. Appointment level will depend on experience and qualifications.

Job Ref No's: P0910255, P0910256 and P0910257
