

Scientific Officer/Senior Scientific Officer
Super Resolution Microscopy Facility
Cancer Research UK London Research Institute
Holborn, London
Overview

We are looking for a Scientific officer/Senior Scientific Officer to join our Super Resolution Microscopy Facility at the London Research Institute.

Details of the role

As part of the establishment of a new Super Resolution Microscopy Facility at the London Research Institute we are recruiting a Scientific Officer / Senior Scientific Officer to a key new role. We wish to recruit an enthusiastic and very dedicated person who will take a prominent role in setting up, running and further developing this emerging area of imaging.

The primary focus of the Super Resolution Microscopy Facility is to facilitate the development and broad usage of super-resolution imaging and data analysis to research laboratories within the LRI. The team will provide state of the art support and advice regarding the design and execution of experiments involving super-resolution imaging. The post holder will also develop image analysis protocols for general implementation at the LRI.

About you

You will take a leading role in the day to day running of super resolution and other high performance microscopes in consultation with the Head of LRI Research Facilities and group leaders involved in high-resolution microscopy and high content analysis. A good understanding of the latest applications and technologies pertaining to advanced microscopy is essential. Previous knowledge of super resolution microscopy and instrumentation would be desirable.

About Cancer Research UK

The Cancer Research UK London Research Institute (LRI) is part of the largest independent research organisation in the world and is committed to training the next generation of cancer research scientists. The LRI conducts innovative basic biological research to improve our understanding of cancer and has made significant breakthroughs since its inception, and continues to be at the forefront of its field. With more than 550 staff and students, the LRI also has a strong academic programme and is committed to training the next generation of world-leading scientists.

How to Apply

All applications should be made via Cancer Research UK's careers website.
