

EMS NEWSLETTER 78

JANUARY 2023

Prof. Dr. José VALPUESTA
EMS President

Prof. Dr. Virginie SERIN
EMS Secretary

The new EMS year has started with a return to normality after the ravages of COVID19.

The call for nominations for the EMS Outstanding Paper Awards 2022 has been launched, this year being February 15th the deadline for applications. We count on you! The award-winning papers will be announced to the EMS members in May this year in our newsletter, and the authors will receive their awards at the 20th International Microscopy Congress September 10-15, 2023 / BEXCO, Busan, Korea (<https://www.imc20.kr>). We hope to see most of you there, there will be a variety of opportunities to interact with speakers, exhibitors, and other conference participants. The call for EMS scholarships has also been launched. To support young researchers, scholarships will be awarded for the participation at the next IMC-20 (September 9-15, 2023, Bexco, Busan, Korea. <https://www.imc20.kr/main/main.php>). You may apply online through our EMS website (<https://www.eurmicsoc.org/en/scholarship-form/>). The application deadline is fixed as the original conference abstract submission deadline for this meeting (April 15, 2023).

In 2023, our society will commemorate its 25 years, and several initiatives are underway to celebrate it, of which you will be informed in due time. As usual, the EMS continues with its support to the activities of our members, so please have a look at our webpage for the various meetings and workshops that will take place over the next year. A small symposium will take place at IMC-20 to celebrate our first 25 years of existence.

We invite you to visit the EMS webpage: <http://www.eurmicsoc.org/en/>, which is daily updated to efficiently provide you with information from our community.

Any suggestions and ideas for future newsletters are welcome at sec@eurmicsoc.org.

We look forward to seeing many of you in Copenhagen at EMC2024.

We are very pleased to announce the list of Events to be Sponsored in the first half of 2023:

- **Winterschool 2023 – Practical course in advanced microscopy**
23 to 27 January 2023 - Zurich – Switzerland
<https://www.zmb.uzh.ch/en/teaching/Winterschool.html>
- **ELMI 2023 - 06 to 09 June 2023 - Netherlands**
<https://elmi2023.eu/>
- **BIST Symposium on Microscopy, Nanoscopy and Imaging Science**
2023 - 20 May 2023 - ICF0 - Auditorium - Barcelona - Spain
<https://bist.eu/events/event/2022-bist-symposium-on-microscopy-nanoscopy-and-imaging-sciences/>

You can find more information on these Events using the added direct link and/or visiting our website at: <https://www.eurmicsoc.org/en/meeting-calendar/ems-sponsored-events/>

This financial support from the EMS ensures that also these smaller events, often organized in the form of a school or course, can invite top scientists to lecture our coming generations of microscopists.

For the second half of the year (July to December 2023), calls for sponsored events will be launched by the end of February.

The EMS executive Board will have its meeting end of March this year.

In the coming months, you will receive the EMS Yearbook 2022, which is now under construction. This edition will include reports from EMS prices, past EMC, EMS sponsored and special events, EMS students reports from EMC2020, and many other information.
