

CALL FOR APPLICATIONS: PRE-DOCTORAL CONTRACT AT THE UNIVERSITY OF CADIZ

The **INNANOMAT Research Group** (TEP-946, Materials and Nanotechnology for Innovation) at the University of Cadiz is looking for a PhD candidate to join the research line: '**Nano/microstructural design and characterization of semiconductor nanomaterials and additive manufacturing nanocomposites**'

Candidate Profile:

- **Profile:** Interest in R&D projects related to nanotechnology.
- **Education:** Bachelor's Degree in Science (Physics, Chemistry) or Engineering (Chemical, Materials). A Master's Degree in Nanotechnology (or similar) is a plus, though not mandatory.
- **Experience:** Not required. Previous collaboration with research groups during your undergraduate studies will be valued.
- **English:** Basic/Fluent.
- **Mobility:** Occasional. Attendance at conferences and national/international research stays.
- **Location:** Faculty of Science, Puerto Real Campus, Cadiz.
- **Start Date:** First semester of 2026

Interested candidates are invited to send their CV to Dr. Miriam Herrera Collado at miriam.herrera@uca.es
