

EMS NEWSLETTER 71

APRIL 2021

Prof. Dr. José VALPUESTA
EMS President

Prof. Dr. Virginie SERIN
EMS Secretary

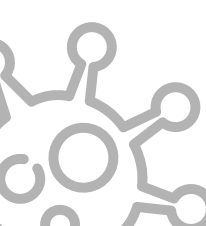

The current global pandemic situation is causing a great amount of uncertainty in general, and our community is not spared. Support and solidarity with all our colleagues is so important in this time.

In the news of our community, always very active, accommodating the situation, you will soon receive the Yearbook 2020, observer of the events and activities of past year. We hope you will enjoy reading the various reports, especially those written by our JEOL-European Microscopy awardees Dr Sara Bals and Dr Emmanuel, the brilliant one about the KAVLI price 2020, as well reports of the students who attended the virtual meeting EMC2020 in November 2020.

As done last year, EMS Scholarships will be offered to students attending the virtual EMC extension meeting: The Joint Meeting of Dreiländertagung & Multinational Congress on Microscopy on August 22-26 2021.

The EMS executive Board will have its virtual meeting in April this year.

Calls for sponsored events have been launched in February for the second half of the year (July to December 2021). This financial support from the EMS will back virtual and onsite events, often organized in the form of a school or course and others, and thus help organizers to invite top scientists to lecture our coming generations of microscopists and student's participation to the meetings.

We invite you to visit the EMS webpage: <http://www.euremicsoc.org/en/>, which is daily updated to efficiently provide you with information from our community.

Any suggestions and ideas for future newsletters are welcome at sec@euremicsoc.org.
